CAPAY VALLEY

The Earliest Fruit Land in California.

Equal In All Respects to the Famous Vaca Valley

Which it Adjoins.

UNPRECEDENTED TERMS.—Interest Only for Five Years at 7 per cent.

Capay Valley is situated in Yolo County, State of California, about 90 miles by rail from San Francisco, and is traversed in its entire length by the Woodland, Capay and Clear Lake Railroad, the distance from Esparto to Rumsey being 21 miles.

The Capay Valley Land Company is offering the most fertile lands in this beautiful valley upon terms that enable the purchaser to pay for the land out of its own product, viz: Interest only for five years at 7 per cent. The only condition imposed is, that a reasonable proportion of the land purchased shall be planted to fruit trees or vines. Land may be bought on this condition on payment of 20 per cent cash and the remaining 80 per cent at the end of five years, with interest annually in advance; at 7 per cent. The various tracts owned by the Capay Valley Land Company have been subdivided into ten and twenty acre lots, which are for sale at prices varying from \$50 to \$150 per acre. Similar unimproved land in Vaca Valley has recently been sold at from \$400 to \$500 per acre.

The Capay valley lands are under the most favorable climatic conditions for the prosecution of profitable fruit growing; and the locality has proved itself to be one of the earliest in the State.

The railroad passes through all the tracts owned by the Capay Valley Land Company, thus insuring excellent shipping facilities; and the land may now be purchased in the immediate proximity of either the following stations: Capay, Cadenasso, Surrey, Guinda, Sautern, Cashmere or Kumaey.

At many of these places fine orchards of the choicest and earliest varieties of peaches and apricots may already be seen; and during the coming season considerable additional acreage will be planted out. One of the recent sales made by the company was that of Tanager Tract, containing 600 acres to a colony association. This tract has been subdivided into forty holdings, all of which will be planted to fruit trees this season.

The fine orchards on the Guinda Tract, where 800 acres have been sold, are especially worthy of mention; and it is a significant fact that already several of the blocks are owned by successful Vaca valley fruit-growers, who expect to make their earliest shipments from here.

Too much stress cannot be laid upon the great advantage to the fruit grower of being in an early locality. In most cases it makes the difference between success and failure. The industrious orchardist of Capay Valley may rest assured that he will derive all the
